THE BEST AND ONLY PROOF of the efficacy of a medicine is the testimony of those who have used it, and experienced its highly beneficial effects. The proprietor of the well known and highly colebrated LIFE PILLS AND PHE-NIX BITTERS, has been cheered in his labors by the oral and written testimony of thousands, who have been snatched from death, or restored to health from distressing and protracted disease, by the use of the Life Meticises. So long as contening real henefit upon his race can delight the heart, he is sure of that pleasure. He owes it to the suffering members of the human family to make such facts public as may induce them to avail themselves of a remedy which has proved effectual in so many cases, that to enumerate them would lead those unacquainted with the virtues of his medicine, to im-peach his veracity. From the hundreds of letters and certificates in his possession, he selects the

To Ma. In the winter of 1838-9, the complaint became so troubic-some that I left the mint in Philadelphia, where I had been four years employed under Messrs. Pat-terson, Eckfeldt & Cloud, and went upon a visit to my friends in Port Coventry, near Purlington, Vt.
While there, the swellings extended over my whole
body and head; and in that distressing situation I
remained four months and a half, unable for a great portion of the time to walk, or assist myself. Looking over the papers, and noticing the advertisements of your Life Madicines, and observing the statement that they are purely vegetable, I sent by Mr. Bennett to Mr. Lyman, your agent in Montreal, for three boxes. By making use of farty two pills, I was in three weeks able to walk about the room, and am now perfectly free from the swellings. have walked from Port Coventry to New York, 150 miles, at the rate of 12 miles per day, and arrived in this city this 30th day of July, in good health-4 blessing I have not before enjoyed for many years.

Extraordinary case of Lyman Pratt, who was afflicted with Phthisic 20 years—effected a perfect cure in 24 hours by the use of the Life Medicines.

Thousands of persons afflicted in like manner, have, by a judicious use of MOFFAT'S LIFE PILLS and PHENIX BITTERS, been restored to the enjoyment of all the comforts of life. The Bitters are pleasant to the taste and smell, gently astringe the fibres of the stomach, and give that proper tensity which a good digestion requires. As nothing can be better the constitution, so there is nothing more generally acknowledged to be peculiarly efficacious in all inward watings, loss of appetite, indigestion, depression of spirits, trembling or shaking of the hands and limbs, obstinate coughs, shortness of breath, or consumptive habits.

The Life Medicines possess wonderful efficacy in all nervous disorders, fits, headaches, weakness, heaviness and lowness of spirits, dimness of sight, confused thoughts, wandering of the mind, vapours and melancholly, and all kinds of hysteric com-plaints are gradually removed by their use. In sickness of the stomach, flatulencies, or obstructions, they are safe and powerful, and as a purifier of the blood, they have not their equal in the world!

SYNOPSIS OF THE Brandrethian Method

of Curing Disease, From whatever cause arising, (all ending in the same effect-i. e., producing impure Blood and Fluids),

only one, and only one MEDICINE; The capability of which has been fully proved, beyond the power of malignity,

envy, or malice to gainsay. RUPT HUMORS being seated in the identical part where the pain is experienced. These corrupt humors, when in sufficient quantity to overbower the principle of life, are the positive

It is a solemn truth that corruption terminates the existence of all created beings; the importance of its speedy removal from the body, when by any cause it has accumulated, is therefore self evident; as not only health, but EXISTENCE being abso-

lutely endangered by its presence.

Let us then acknowledge that the only sure means of preventing and curing disease, is the speedy removal of corrupt humors from the body. Disease being only another name for corruption, benefit and satisfaction, and believe it to be a most and corruption, or corrupt humors being identified valuable remedy. One of my constituents, Dr A.

in all cases as impurity of blood.

Secondly - PURGATIVE MEDICINE, when resorted to in season, that is, while there is suffi-

corruption; thus the blood is purified; thus encode infirmities and premature death are prevented:
thus, those whose lives are of the utmost importance to their country and families, are often saved.
The importance of this discovery of curing disea-e, after ages will do justice to; Dr. Benjamia Brandreth will not then be styled an "ignorant pretender." but that will neither please nor offend him; in the rectitude of his own acts, in the quiet of his own conscience, is his reward.

The great, the immortal Bucon says, "It is impossible to calculate how many days might be added to the life of man by the occasional use of purging medicines, that neir effect upon the human rame is the same that pruning trees has upon them. The excresences are removed, and a new stimulus That when constant exercise cannot be used from any cause, the occasional use of opening medicine is absolutely required. Thus, the conduits of the blood, the fountain of life are kept free from impurities which would prevent its steady current ministering health. Thus, morbid humors are prevented from becoming mixed with it. It is nature which is thus assisted through the means and outlets which she has provided for herself."

With such authority as this before us, we may indeed use the expression,

Cleanse and purify the Body. The application of the principle of purgation being allowed to be one of the greatest utility, in the cure and prevention of disease, it is of the greatest consequence to ascertein what medicine is capable of producing the desired effect in the easiest, and at the same time in the most effectual manner; and

BRANDRETH'S PILLS

are proved, by the experience of thousands, to be when properly persevered with a certain cure, in every form, of the only one Discase, all having the same origin, and invariably arise from the UNI-VERSAL ROOT of all disease, namely impurity or imperfect circulation of the blood.

They remove all nexious accumulations, and

and invigorate the blood, and their good effects are not counterbalanced by any inconvenience; being composed entirely of vegetables, they do not expose those who use them to danger; and their effects are as certain as they are salutary, they are neas, could not lie in a horizontal position without daily and safely administered to youth, manhood, the sensation of impending suffocation, palpitation infiney and of age-and to women in the most critical and delicate circumstances—they do not disturb or shock the animal functions, but restore their order and re-establish their health.

And for all the purposes which a vegetable purgative, or certain cleanser of the whole system are required, they stand without a rival; they are al lowed to bE ALL that can be accomplished in a Dr Wm. Evans Mediciae in his complaint, which medicine both for POWER and INNOCENCE. A trial insures a patron. No care or expense is spared in their manufacture, Dr. Brandreth being too jealous of his own fame to trust the mixing to any one. He attends to that department with his own hands, and guarantees the medicine to be always equal to what it ever has been. The States of Michigan and Illinois resound with the praises of this valuable medicine. Persons are often known to ride sixty miles through the woods for a box. The Brandreth Pills are indeed a sure and speedy cure for Fever and Ague, and those miserable Bilious Fevers, with which, unfortunataly, these districts abound.

Therefore, the Brandrethian method of curing all kinds of disease, has now no longer to contend with the blind prejudices of the greatest portion of the public; it is only with those few who still are determined "to be killed according to rule," like the people of old, who 'would have a 'king to reign over them.' But, thanks to the circulation of newspapers—thanks to the general diffusion of knowledge, which enables nineteen twentieths of the people to read and judge for themselves-now we no longer believe in swallowing that deadly mineral, Mercury, professing to cure-but universal ly leaving us in a worse condition after its use. Lowell, Nov. 15, 1836. Dear Sir-Knowing by experience that every reference that the afflicted receive of the beneficial results of medicines, I cheerfully offer mine to the public, in behalf of Dr Wm. Evans' Cammomile Pills. I have been afflicted for the last two with distress in the headand chest; often so bad as to deprive me of sleep for three or four nights in ssion, but have never found relief by my friends' prescriptions, until my wife saw the advertisement in the paper, when she persuaded me to send for some, which I did, and obtained two poxes and bottles, which resulted in almost completely restoring me to health aithough I have not yet entirely finished them. Shou'd you consider this ary benefit to yourself or the public, you have my cheerful permission to publish it.
Yours respectfully,
THOMAS K. GOODHUE, Central street.

DR. WILLIAM EVANS' SOOTHING SYRUP.

For Children Teething. Prepared by Himself. when thought past recovery, from convul-Ass on as the Syrup is rubbed on the gums the child will recover. This preparation is so innecent, so efficacions, and so pleasant, that no shild will refuse to let its gums be rubbed with it. When infints are at the age of four months, though there is no appearance of teeth, one bottle of the syrup should be used on the gums to open t e pores. Parents should never be without the syrup in the nursery where there are young c ildren, for if a child wakes in the night with pain in the gnais, the syrup immediately gives ease, by opening the pores nd healing the gums; thereby preventing convulisons, Fevers &c.

A gentleman who has made trial of Dr W, Evans Southing Syrup in his family, (in case of a teething child) wishes us to state that he found it entire-

by effectual in relieving pain in the gums, and preventing the consequence which sometimes follow. We cheerfully a many with his request. [Sun. **] We believe it is generally acknowledge! by these who have tried it, that the Soothing Syrup for Children Cutting Teeth, advertised in another column, is a highly useful article for the purposes for which it is intended. Highly respectable persons, at any rate, who have made use of it, do not hesi tate 'o give its virtues the sanction of their names.

ich Price advertisement on 1st page. 1,20 Mr Bond, one of the Compositors in the office of the Philadelphia Public Ledger, who had lost nearly all his hair from off the top of his head, has had it completely restored by the use of this Tonic. Two Officers of the American Navy had good heads of hair restored to them by using five bottles each of this HAIR TONIC, one of whom was over sixty years of age. Four gent emen connected with the Public Press in Philadelphia, have also had their baldness removed by using this remedy. The Rev. Mr Par-ker, Pastor of the Presbyterian Church in Deleware County, Pa, who was completely bald over all the top of his head, and was also becoming considerably gray, has used only two bottles of this Tonic, and has not only a luxuriant growth of new hair upon his head, but all the gray bairs have disappeared, and their places have been supplied by healthy bair, of a natural colour. Finally, nine cases of baldness out of every ten may positively be removed by a faithful application of this valuable remody. There is therefore, now, NO EXCUSE FOR A BALD HEAD.
